

Priority Point System for Booth Selection at ASHP National Meetings

ASHP uses an on-site priority point system to reserve booth space for the next ASHP meeting. Booth spaces are sold one year before the next meeting. The number of Priority Points your company has accumulated determines your place in the on-site selection schedule.

Priority Points are based on the requirements below:

Priority Point System (includes three years of Summer/Pharmacy Futures) and Midyear)

Activity Points

- Points for 1st 10' x 10' (Pharmacy Futures) 5
- Points for each additional 10' x 10' (Pharmacy Futures) 1
- Points for participating in hotel room block (Pharmacy Futures) 5
- Points for 1st 10' x 10' (Midyear Clinical Meeting) 5
- Points for each additional 10' x 10' (Midyear Clinical Meeting) 1
- Points for participating in hotel room block (Midyear Clinical Meeting) 5
- Points for participating in both the Pharmacy Futures & Midyear Clinical Meeting exhibits 10
- Points for Sponsorship 1 (per \$2,500)
- Points for Foundation 1 (per \$2,500)
- Points for Advertising 1 (per \$2,500)

Please Note: In the case of exhibiting companies that have either merged with, been purchased by, or purchased another company and merged their booth space, the points are not added together; instead, they will assume the points of the company merged with. If a company splits to form separate companies, the parent company retains the points, and the new company will begin the point accumulation process as any other new exhibitor.

Space Selection Policy

The online contract for exhibit space must be completed onsite. Companies not participating in the onsite space selection can access the online booth portal and reserve secure space once ASHP opens exhibit booth sales to all eligible companies. Exhibit space will then be assigned on a first-come, first-served basis.
