

JULY 27-31 • CHICAGO, IL

GLOBAL TRADE DIRECTORY

The U.S. Export Interest Directory contains a listing of U.S. exhibitors that wish to discuss international trade opportunities with you during the ADLM 2025.

As of July 26, 2024. For updates, scan QR code below.

A2LA American Association for Laboratory

Booth Number: 4142
5202 Presidents Court
Suite 220
Frederick, MD 21703
<https://www.A2LA.org>
301-644-3248

Company Description:

A2LA offers unique accreditation options for clinical laboratories. Organizations may choose the Platinum Choice Clinical Accreditation Program, which combines CLIA requirements and ISO15189:2012 in a single assessment. A2LA's Platinum Choice program is the only one in the world that offers accreditation to CLIA as well as internationally recognized accreditation through ILAC to ISO 15189:2012. Options for CLIA or ISO 15189 accreditation individually are also available.

ALine, Inc.

Booth Number: 3357
2799 Temple Ave.
Signal Hill, CA 90755
United States
<https://www.alineinc.com/>

Company Description:

Experts in the Science and Engineering of Microfluidics for the Life Science, IVD, Wearables, Point of Care Markets Need for Speed...Do you have critical milestones to meet that will allow you to unlock the next round of funding? ALine helps you leverage your investment in demonstrating proof of principle to reach milestones that unlock 10x your initial investment through a successful demonstration of a complete functional system for your point of care product. Our clients have confidence in our ability to partner with them to meet critical deadlines with well structured milestone-based pricing. We meet our shipping deadlines 95% of the time. Typical turn around times for new parts based on design changes are less with 7 business days. ALine has a toolbox of engineered functional microfluidic components that have well defined functional specifications. We've solved a range of applications needs over our 16 years in business and over a wide range of projects and applications.

ALPCO

Booth Number: 3245
26-G Keewaydin Drive
Salem, NH 03079
<https://www.alpco.com>
800-592-5726

Company Description:

As a global leading developer and provider of innovative molecular and immunodiagnostic solutions, we specialize in Infectious and Gastroenterological Diseases. Our mission is to empower research and clinical laboratories worldwide with high-quality, user-friendly, and reliable diagnostic tools that deliver accurate results. We are a trusted partner, committed to creating value through scientific excellence and customer-centric solutions. Our success is driven by a culture of respect, dedication, empowerment, and creativity, enabling us to continuously innovate and meet the evolving needs of the global healthcare community.

Aptitude

Booth Number: 4263
125 Cremona Drive
Goleta, CA 93117
<https://www.apitudemedical.com/>
805-618-2448

Company Description:

Aptitude is transforming point-of-care molecular diagnostics with our breakthrough Metrix® platform. Metrix empowers providers to give their patients lab accuracy in minutes – No lab. No wait. Metrix is simple. Its hand-held design disrupts cost barriers, enabling use by anyone in any environment. Metrix is FDA authorized OTC/CLIA-waived for COVID-19 and has a rapidly growing menu for COVID/Flu, RSV, STIs, Strep A and more. No instruments. No training. No maintenance. No compromises. wellness conditions.

Athens Research and Technology, Inc.

Booth Number: 3623
110 Trans Tech Drive
Athens, GA 30601
<https://www.athensresearch.com>
706-546-0207

Company Description:

Athens Research & Technology manufactures highly pure, highly active human and animal proteins for ongoing use worldwide by researchers, and for life sciences product manufacturing in the pharmaceutical, diagnostic, and calibration & control verticals. We are driven by People, Purpose, and Proteins. As a small company with a vital impact in the biotech world, we are deeply committed to our team, our community, and the critical nature of the components we produce. We take pride in being your trusted source for a wide range of proteins, knowing the importance they hold in your research or manufacturing projects. When you choose ART, you can have confidence in receiving not only high-quality products but also expert support tailored to your specific needs. From our humble beginnings in 1986 as one of the University of Georgia's first start-ups to our recent consecutive Globe Awards for global exports, ART is a small company that is making a difference locally and globally.

Indigo BioAutomation

Booth Number: 1348
385 City Center Drive, Suite 200
Carmel, IN 46032
<https://www.indigobio.com>
317-493-2400

Company Description:

Indigo BioAutomation simplifies complexity in clinical diagnostics, delivering laboratory intelligence automation and scalable infrastructure for labs running moderate to high-complexity laboratory developed tests. ISO 13485:2016 certified since 2015 and trusted in the processing of more than 250 million clinical samples, Indigo offers ASCENT and ARQ, cloud-based platforms purpose-built for high-throughput GC/LC-MS/MS and RT-PCR workflows. Listed Class I (exempt) medical devices, both solutions help labs reduce manual burden, increase throughput, and remain audit ready while powering operational insights through an integrated data warehouse. Designed to evolve with expanding test menus, instrumentation, and compliance expectations, Indigo's platforms help labs operate with precision, clarity, and confidence in an increasingly demanding regulatory and scientific environment.

IVD Technologies

Booth Number: 3051
2002 S. Grand Ave Suite A
Santa Ana, CA 92705
<https://www.ivdtechnologies.com>
714-549-5050

Company Description:

IVD Technologies develops and manufactures immunoassay diagnostic products. Product lines include ELISA, RIA, homogeneous EIA, chemistry reagents, synthesis, and antibody production for hormones, infectious diseases, endocrinology, tumor markers, and autoimmune diseases. Services include method development on LCMSMS, HPLC, GCMSMS, GCFID, and ICPMS. Other services include lyophilization, ELISA and chemistry reagent production, and automated high volume bottle filling and labeling.

Kryptos Biotechnologies

Booth Number: 4119
4030 Point Eden Way Suite A
Hayward, CA 94545
<https://kryptosbio.com/>
267-271-5511

Company Description:

Kryptos Biotechnologies is developing Kuick, a rapid, accurate, easy-to-use and affordable molecular diagnostic system for point-of-care testing. The system uses proprietary Ultrafast Photonic PCR technology combined with solid-phase extraction in the sample preparation. The system ensures the best-in-class performance while providing test results on time. The development of the system is completed and ready for validation study or clinical study.
