

New for 2021

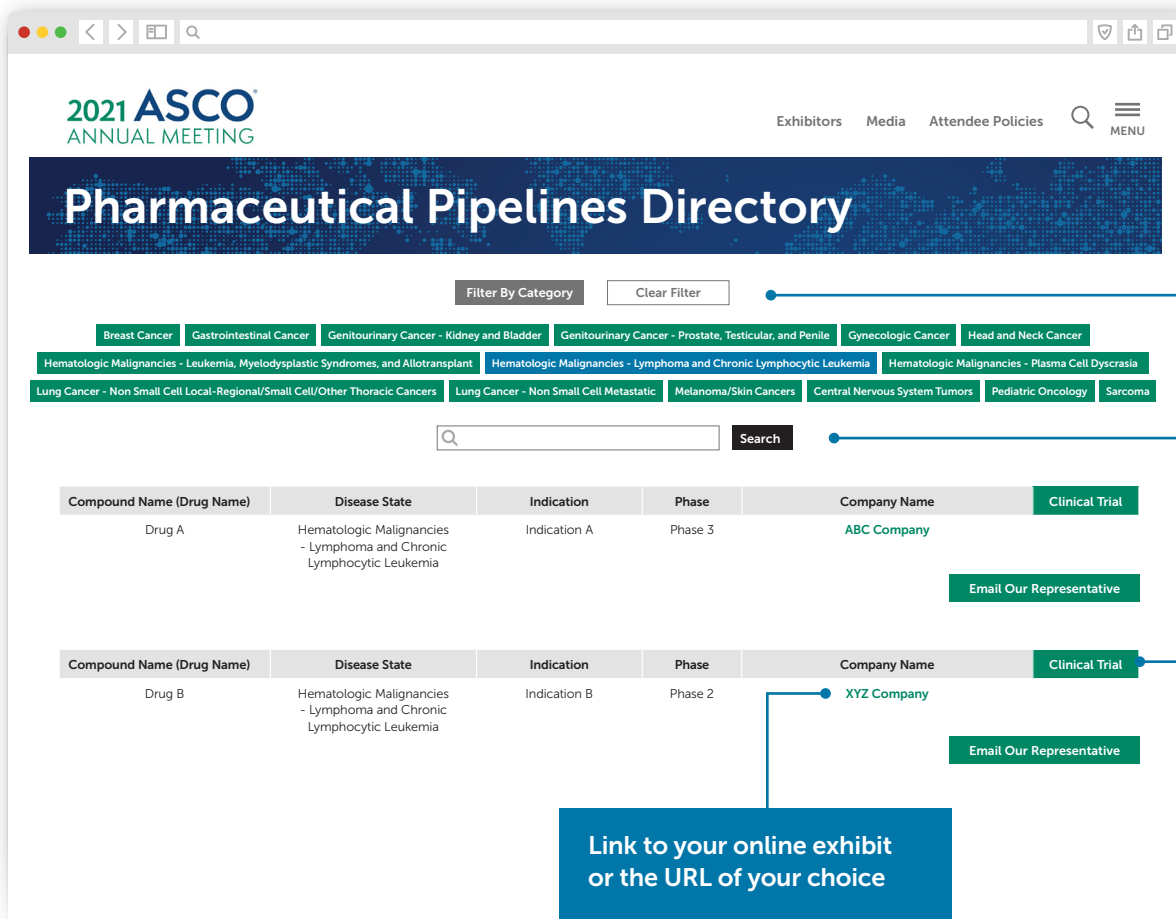

The new Pharmaceutical Pipelines and Clinical Trials Directories will be prominently positioned on the ASCO Annual Meeting Online Exhibits platform. The directories will provide health care professionals access to current information on pharmaceuticals in development and oncologic clinical trials to encourage and stimulate meaningful dialogue. Directories will be accessible before, during, and after the online program.

Pharmaceutical Pipelines Directory

Early Phase 1 and Phase 1: \$5,000 per listing | Phase 2: \$7,500 per listing | Phase 3 and Beyond: \$10,000 per listing

Rates apply to current exhibitors. Purchase three or more and get a 20% discount on all listings. Non-exhibiting companies may participate for a 20% premium fee above listing price.

The directory will serve as a resource giving health care providers current information on oncologic pharmaceuticals in development. This repository is searchable by disease state, phase, keyword, and company name. Listings will include compound name, indication, and phase with a link to your online exhibit or the URL of your choice. A link to the Clinical Trials Directory will be provided to companies with listings in both directories, connecting the pipeline information to details about associated trials. The Pharmaceutical Pipelines Directory will be accessible May 14, 2021 through July 6, 2021.
