

# Pharmaceutical Pipelines Directory

The Pharmaceutical Pipelines and Clinical Trials Directories will be prominently positioned on the ASCO Annual Meeting website and accessible by in-person attendees in the Exhibit Hall in Chicago. The directories will provide health care professionals access to current information on pharmaceuticals in development and oncologic clinical trials to encourage and stimulate meaningful dialogue. Directories will be accessible before, during, and after the online program.

**Early Phase 1 and Phase 1: \$5,000 per listing | Phase 2: \$7,500 per listing | Phase 3 and Beyond: \$10,000 per listing**

*Rates apply to current exhibitors. Purchase three or more and get a 20% discount on all listings. Non-exhibiting companies may participate for a 20% premium fee above listing price.*

The directory will serve as a resource giving health care providers current information on oncologic pharmaceuticals in development. This repository is searchable by disease state, phase, keyword, and company name. Listings will include compound name, indication, and phase with a link to your online exhibit or the URL of your choice. A link to the Clinical Trials Directory will be provided to companies with listings in both directories, connecting the pipeline information to details about associated trials. The Pharmaceutical Pipelines Directory will be accessible online mid-May through late June 2022.
