## About ASHP

ASHP is the largest association of pharmacy professionals in the United States, representing 60,000 pharmacists, student pharmacists, and pharmacy technicians in all patient care settings, including hospitals, ambulatory clinics, and health-system community pharmacies. For over 80 years, ASHP has championed innovation in pharmacy practice, advanced education and professional development, and served as a steadfast advocate for members and patients. In addition, ASHP is the accrediting body for pharmacy residency and technician training programs, and provides comprehensive resources to support pharmacy professionals through every stage of their careers.

### ASHP MISSION

The mission of pharmacists is to help people achieve optimal health outcomes. ASHP helps its members achieve this mission by advocating and supporting the professional practice of pharmacists in hospitals, health systems, ambulatory care clinics, and other settings spanning the full spectrum of medication use. ASHP serves its members as their collective voice on issues related to medication use and public health.

### ASHP VISION

ASHP's vision is that medication use will be optimal, safe, and effective for all people all of the time.

## A Voice of Health-System Pharmacists

With the assertiveness and diligence of hospital pharmacists to establish national recognition, the American Society of Hospital Pharmacists (ASHP) was formed on August 21, 1942. "We are standing on the beginning of a new era," Harvey A. K. Whitney, the first chairman of ASHP, told his colleagues a year after ASHP's conception. He continued, "Now is the time to decide on our objectives, to find our place in the larger organization of health services." ASHP did just that.
