

# ASCB | EMBO 2019 meeting

Washington, DC • December 7-11

*A forum across the life sciences*

## scientific numbers

# 5,870

attendees from 61 countries

# 2,493

poster presentations

# 346

talks selected from abstracts

# 217

exhibitors

# 494,534

app opens

## career and professional development

# 42

education and professional development sessions

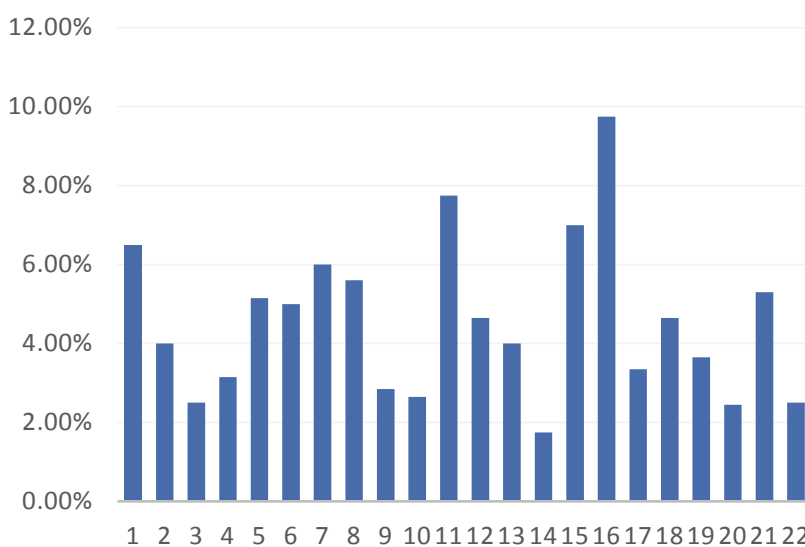

# 89

networking roundtable discussions with experts

# 50

tech talks by exhibitors

## poster session category topical analysis

1. Actin Cytoskeleton	6.50%	12. Signal Transduction and Signaling Networks	4.65%
2. Microtubule Cytoskeleton	4%	13. Proteostasis, Cell Stress, and Aging	4%
3. Cilia & Flagella	2.50%	14. Cell Polarity	1.75%
4. Molecular Motors	3.15%	15. Development and Morphogenesis	7%
5. Cell Structure, Mechanics and Motility	5.15%	16. Cancer Cell Biology	9.75%
6. Cell-Matrix and Cell-Cell Interactions	5%	17. Normal and Diseased Organs and Therapeutics	3.35%
7. Membrane Trafficking	6%	18. Cell Biology of the Neuron	4.65%
8. Organelles and Membrane Biology	5.60%	19. Cell Biology of Microbes and Parasites	3.65%
9. Nuclear Structure and Function	2.85%	20. Physical, Chemical & Systems Cell Biology	2.45%
10. Regulation and Organization of the Genome	2.65%	21. New Technologies and Frontiers	5.30%
11. Cell Division: Mitosis & Meiosis	7.75%	22. Science Education	2.50%

## countries with the most attendees:

USA - Canada - Japan - Germany - United Kingdom - South Korea - Taiwan - China - France - Switzerland

3,978 142 235 125 129 201 62 83 93 43
