

FastSensor

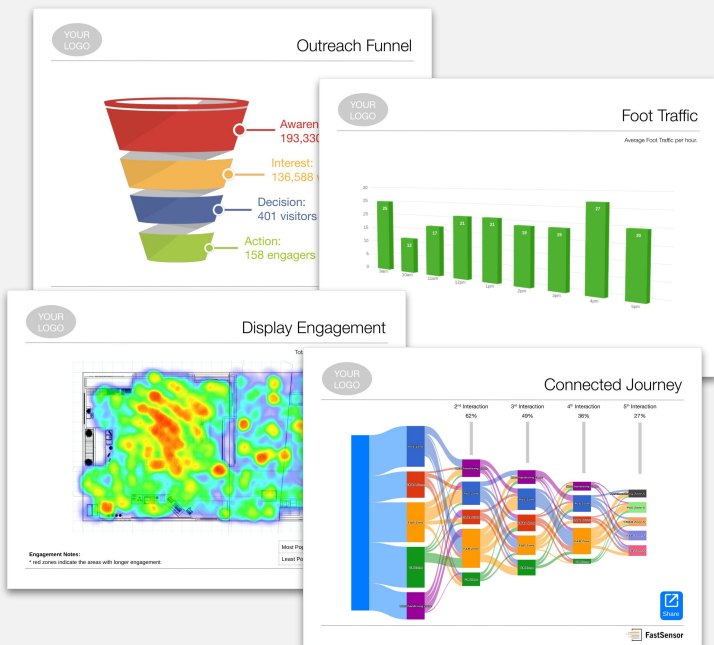

Measure your Visitor Traffic

and view your event like never before

Reveal your full impact

FastSensor helps exhibitors increase ROI for booths by analyzing and delivering insights on visitor journey, impressions and conversions.

Unlock the power of data

Use our AI-powered insights to optimize engagement and conversions. No more guesswork; just strategic decisions that make your event participation truly impactful.

- Journey
- Heatmap
- Conversion funnel
- Brand impression
- Time-in-view
- Foot traffic
- Dwell time

Questions we answer

- How many visitors came to your booth?
- How visible was your booth?
- How engaging was your display?
- How many people entered your space?
- Where did your visitors go?
- What was the average dwell time?
- Which area attracted the most visitors?
- What was the busiest time?

AI-powered analytics

FastSensor elevates your exhibition experience by empowering you with actionable insights into foot traffic at your booth. Our cutting-edge technology tracks visitor engagement, journey, and dwell time, enabling you to understand audience behavior like never before. And our easy-to-use dashboard helps you to fine-tune your strategies, optimize booth layout, and maximize conversions.

FastSensor's foot traffic tracking service is your secret weapon to transform casual browsers into engaged customers, revolutionizing how you exhibit.
