

# 65th ASH® Annual Meeting and Exposition

December 9-12, 2023 • San Diego, CA

The ASH Pipeline and Clinical Trials Directories will be accessible and promoted year-round to attendees of the 65th ASH Annual Meeting and Exposition via pre-show communications, on the virtual meeting platform, and at the in-person meeting. Directory listings will also remain available throughout the year for attendees of other ASH meetings including Highlights of ASH and ASH Meeting on Hematologic Malignancies.

The directories provide clinicians insight on the status of hematologic pharmaceuticals and medical devices in development and clinical trials that can lead to improved patient care and outcomes.

## Pipeline Directory

**\$7,500 per listing** — *Non-Exclusive*

The directory will serve as a resource providing health care providers with current information on the status of hematologic pharmaceuticals and medical devices in development. This repository is searchable by hematologic disease pathway, phase, keyword, and company name. Listings will include compound or medical device name, indication, and phase with a link to the URL of your choice. An additional link will be provided to companies with listings in the Clinical Trials Directory bridging the pipeline information to details about associated trials. The Pipeline Directory will be accessible November 1, 2023 through October 31, 2024. Listings may be updated at any time throughout this period.

The screenshot shows the Pipeline Directory website interface. At the top left is the ASH logo. The main heading is "Pipeline Directory". Below this is a "Filter By Category" section with buttons for: Anemias, Bleeding and Clotting, Bone Marrow Failure, Genetic Disorders, Hemoglobinopathies, Immune Disorders, Infectious Diseases, Lymphoid Malignancies, and Myeloid Malignancies. A search bar is located below the filters. The main content area displays two listing rows. Each row has columns for Compound (Drug)/Device Name, Disease Pathway, Indication, Phase, Company Name, and Clinical Trial. Below each listing are two buttons: "Meet With Our Representative" and "Email Our Representative".

Compound (Drug)/Device Name	Disease Pathway	Indication	Phase	Company Name	Clinical Trial
Drug A	Lymphoid Malignancies	Indication A	Phase 3	ABC Company	<input type="checkbox"/>
Drug B	Lymphoid Malignancies	Indication B	Phase 2	XYZ Company	<input type="checkbox"/>
