

AMERICAN SOCIETY OF CLINICAL ONCOLOGY
KNOWLEDGE CONQUERS CANCER

Clinical Trials Directory

Open to all ASCO members, non-members, and the public, the Pharmaceutical and Device Pipeline and Clinical Trials Directories will be prominently positioned on the ASCO website and accessible by in-person and online attendees at ASCO Meetings. The directories will provide health care professionals access to current information on oncologic pharmaceuticals and devices in development and clinical trials to encourage and stimulate meaningful dialogue. Directories will be accessible July 2022 through June 30, 2023.

\$10,000 per listing

Rates apply to current exhibitors. Purchase three or more and get a 20% discount on all listings. Non-exhibiting companies may participate for a 20% premium fee above listing price.

The Clinical Trials Directory is the best way to get your company's trials in front of this critical audience, allowing clinicians the opportunity to contact your representative directly for more information and to ask questions. This list will be searchable by disease state, phase, location, company name, and keyword. Listings will include compound or device name, study title, NCT number with link to clinicaltrials.gov, study type, trial locations, and contact information. Listings will be linked to the URL and contact email of your choice.

The screenshot shows the ASCO Clinical Trials Directory website. At the top, there's the ASCO logo and a search bar. Below the search bar, there are several filter buttons for different cancer types and phases. A search bar with a magnifying glass icon is also present. Below the filters, there are two tables of clinical trial listings. Each listing includes columns for Compound (Drug)/Device Name, Disease State, Study Title, Phase, NCT Number, Study Type, Trial Locations, and Company Name. Below each listing, there is a green button labeled 'Email Our Representative'. Blue callout boxes with lines pointing to specific elements provide additional information: 'Search by disease state' points to the filter buttons; 'Search by phase, location, company name, or keyword' points to the search bar; 'Displays study description and criteria' points to the Study Title column; 'Link to listing on clinicaltrials.gov' points to the NCT Number column; and 'Link to the URL of your choice' points to the Company Name column.

Compound (Drug)/Device Name	Disease State	Study Title	Phase	NCT Number	Study Type	Trial Locations	Company Name
Drug A	Lung Cancer - Non Small Cell Metastatic	Study Title A	Phase 3	Number A	Observational	China, Germany, United Kingdom	ABC Company
Drug B	Lung Cancer - Non Small Cell Metastatic	Study Title B	Phase 2	Number B	Interventional	United States, Canada	XYZ Company
